FREESPOT
# Setup Guide

---

## Mobile Devices

iOS

1. Open Settings and tap *Wi-Fi*.

2. Select

    SANJO-FREESPOT

3. Enter "freespot" as the password and tap *Join*.

    Once you are successfully connected to FREESPOT, a web browser will launch automatically.
Android

1. Open Settings and tap *Wi-Fi*.

2. Select

    SANJO-FREESPOT

3. Enter "freespot" as the password and tap *CONNECT*.
4. Tap the notification below if it appears.
    A web browser will launch automatically.

Computers

Windows 10/8.1

1. Click the Wi-Fi icon on the taskbar.

2. Select

    SANJO-FREESPOT and click *Connect*.

3. Enter "freespot" as the network security key and click *Next*.
   If the network location wizard appears, click *No*.

    Once you are successfully connected to FREESPOT, a web browser will launch automatically.
Windows 7

1. Click the Wi-Fi icon on the taskbar.

2. Select

    SANJO-FREESPOT and click *Connect*.

3. Enter "freespot" as the security key and click *OK*.
    If the network location wizard appears, click *No*.

4. Once you are successfully connected to FREESPOT, open a web browser.

Mac

1. Click the Wi-Fi icon in the menu bar.

2. Select

    SANJO-FREESPOT

3. Enter "freespot" as the password and click *Join*.

    Once you are successfully connected to FREESPOT, a web browser will launch automatically.

Follow the instruction on the backside and register your device.
Register Your Device

After you successfully connected to FREESPOT and a web browser is opened, register your device by following the procedure below.

1 Follow the instructions on the screen. After reading the displayed terms of use, select *Agree*.

If the "Thank you for using FREESPOT." screen does not appear, access the URL.

http://www.freespot.com/

A Register Using Your Email Address

2 Select "Email Account" and enter an email address that can receive emails immediately.

3 You will receive an email. Follow the instructions in the email.

After the process is finished and you successfully sign in to FREESPOT, Internet access will become available.

B Register Using Your SNS Account

If this method cannot be used, use procedure **A** to register instead.

2 Select "SNS Account Anthentication" and select the SNS you use.

3 Follow the instructions on the screen and log in to the SNS.

4 After the process is finished and you successfully sign in to FREESPOT, Internet access will become available.

Your account will be active for 183 days from your last access. After the expiration date, you will need to register your email address again.

Next Time
Once you sign in to FREESPOT using your email or logging in to an SNS, the device you registered can access the Internet without any registration until the sign in expires.

Sign in will remain valid for 6 months.
If 6 months pass from your last access and the sign in expires, register again using the procedure above.
